PROFESSIONAL SUMMARY

Motivated and high-achieving Software Engineering student at INSAT with a strong record in AI development, full-stack web applications, and competitive programming. Holds NVIDIA and GOMYCODE certifications in Deep Learning and Generative AI. Proven ability to build and deploy intelligent platforms, mentor peers, and lead media and community initiatives. Trilingual (French, English, German) with excellent communication and leadership skills.

EDUCATION

Eng. Software Engineering (Year 2) | *Esprit* 2024 – Present

- Preparatory Cycle in Mathematics, Physics & Informatics completed in Year 1
- Core coursework: Algorithms & Data Structures, Software Architecture, Databases, OOP

Baccalaureate — Science | *Lycée Pilote Gabès* 2020 – 2024

- Outstanding final score: 18.07 / 20 — top of cohort

TECHNICAL EXPERTISE

Artificial Intelligence & Machine Learning

- Fine-tuning medical AI models
- Designed and deployed an insurance package recommendation platform using ML to match user profiles with suitable products
- NVIDIA Deep Learning Fundamentals Certified
- Certified in Generative AI for Professionals — GOMYCODE

Web & Application Development

- Built responsive web applications with JavaScript and Bootstrap
- Developed a Pharmacy Information Management System to streamline healthcare operations
- Back-end development using Spring Boot; version control with Git & GitHub
- Familiar with Agile/Scrum methodology in team-based projects
- Developed a SaaS solution for corporate management, streamlining finance, client relations, and employee workflows

Competitive Programming

- "Foundational competitive programming skills with active participation in problem-solving challenges
- Participated in IEEEExtreme international 24-hour programming contest

PROFESSIONAL EXPERIENCE

Algorithm & Programming Instructor (MPI Track) | *Learnify* 2024 – Present

- Design and deliver online courses in algorithms and programming fundamentals
- Mentor students in logical thinking and structured problem-solving approaches

OCVP Vice Media Officer | *Junior entreprise Forum 2025* 2025

- Led all media coverage, digital communication strategy, and brand identity for INSAT Forum 2025
- Coordinated a team of media volunteers to produce multimedia content across platforms
